SPECIAL NOTICES.

EXTRA SPECIAL NOTICE. Testimony of Rev. P. B. Wiles, Covington, Ky. Smith's Tonic Syrup, be Best and Safest Remes for Chills and Fever, or Fever and Ague.

COVINGTON, KY., May 21. There has not been for many years, in this country such a general complaint about chills and fever. This depressing disease is now prevailing in many ortions of Kentucky and elsewhere, where the per le have long flattered themselves that they were entirely exempt from its influence. To those who are thus afflicted, we wish to recommend Smith's Tonic Serup, believing it to be the very best remedy extant. Every one we have heard of using it, pronounce es upon it in the very highest terms. We have late y used it in our family with marked success. The gredients are simple, and the Tonic can be used freely without any detriment to the constitution whatever. If the directions, which always accompany every bottle, are carefully followed, it will in nine caaes out of ten result in a permanent cure, whether the disease be of long or short standing. We take pleasure in recommending this medicine

to the subjects of this disease everywhere, sincerely believing that the use of it will verify every word we For sale by C. B. Bickford & Co., Troy, Kansas.

There's a light of the ling'ring Autumn That gleams in the haze to-day, And a low-hung sky seems resting On the landscapes far away.

And a kindred spirit to me, Comes whispering, all I know, Of a dream's unbroken sweetness While the pulse of the day lies low.

Yet to-morrow's morn may shiver On a threshold cold and chill, That hides to-day its grayness 'Neath the blue on yonder hill;

As blights upon hope's blossoms cet verdure stole, And fell like darkened shadowa O'er the Autumn of the soul.

RAILROAD ACCIDENT.-The switch at the foot of Main Street, near the Banner Mills, is an unlucky spot for trains. On Sunday night, as a freight train was coming down the road, by some means one of the wheels of the engine got on to the switch rail, at that spot, resulting in throwing the engine and tender from the track, and turning them on their side. The engineer was Charles Clauser, whose wife and child were so severely injured in the accident at the same spot, in August, 1877, and who both afterwards died. Clauser, in attempting to jump from the engine slipped and fell upon the track. It is a miracle that he was not crushed to pieces; had the tender moved a foot further, or settled in any other position, he would, in all probability, have been killed. As it was, he was caught by the legs and foot under the tender, and held fast. It required several hours to release him, as it was necessary to work with the greatest caution, with the tools at hand, lest the car should be percipitated upon him. As he lay in the mud and cold, he drew his knife, and attempted to cut his throat. He made several ugly gashes before a brakeman discovered what he was about, and forcibly took the knife from him. In his pain, he doubtless thought that he was crushed, and could not live. and determined to end his own misery. But he was finally released, and taken to the hotel, where an examination showed that his feet were severely mash ed and bruised, but no bones were broken. His wounds were dressed, and he is rapidly recovering.

LET HIM REST .- John Grable's body, not having ceived a Christian burial, seems to be causing some strife, as witness two communications in thi ssue. We are sorry if we have been the means of ating that which has caused this cross-firing. The case was an unusual one, and the public was curious to know all the circumstances. We attempted to satisfy this curiosity; and in looking for informs tian, we applied to Mr. Shepherd, who seemed to have been a prominent actor in the matter. To be sure, we did not tell him that we were interviewing him for publication; but he knew we were inquiring for facts, and we supposed he would tell the thing as it really was, whether it was for publication or pri-vate information. We certainly gathered from his conversation the things we stated in our second article concerning the matter. Rut he did not say an unkind word relative to Mr. Grable or his family, and showed no desire to expose their private affairs. From what he said, we received the impress he entertained only the most friendly feelings for the dead man and his family. We are sure that we had no other feeling, in publishing what we did We think the family altogether mis Shepherd's intent and meaning, when they suppose that he meant any disrespect to them or to Mr. Gra-

PRENTIS'S LECTURE.-N. L. Prentis had a good ouse, last Friday evening, and, as far as we have neard, gave general satisfaction. He attempted no sophical or metaphysical effort, but simply gave the observations and impressions of a common citi-zen, on a brief visit to England, Scotland, and Ireland. His subjects and his language were within the comprehension of all. He showed himself to be The lecture abounded in flashes of humor, and in many eloquent passages.

The Rev. Henry Ward Beecher, in his lec-ture on "The wastes and burdens of society," claims "man's natural life to be 80 years, and as the arrange life is but 33 years, there must be a waste of 47 years." In and About Doniphan.

The festival for the benefit of Father Leak, which The entertainment given by the Dramatic Club, or ame off at Brenner's Hall, last Thursday night, was Thanksgiving evening, was a grand success. "Ten a grand success. The Dramatic Club gave a benefit of Nights in a Bar-Room," and "Yankee Peddler," were performed, and highly appreciated. After the per "The Yankee Poddler," which they played successformance, the audience retired to a supper prepared fully. The hall was full. After the play, came the for the occasion, and a general satisfaction and apsupper. The ladies' committee, with untiring enerprobation was expressed in favor of the abunda nalities of nutritious entables. The supper was folgy, had provided everything good for the inner mar and abundance of it. The tables grouned with every owed by good thing that could be found. About one hundre "The measured fall of dancing feet, and fifty persons took supper, and a more orderly

THE TIMES AHEAD.

[From The Times, Nov. 28, 1878.]

[From The Times, Nov. 28, 1876.]

It is the plain duty of the Times to give the public, and particularly our advertising patrons, the facts concerning its circulation, in order that they may fully appreciate its value and importance as an advertising medium.

The surrest way to obtain the exact circulation of the papers of the State outside of the Counties in which they are published, is from the amount of postage paid by them to the Post-office Department.

Below we give the amount paid by the Times, taken from the post office receipts of this date.

The amount paid by other papers in the State, is taken from the Atchison Champion, which claims to have the amount from official sources, and being published in its columns, is evidence that it accepts it as correct, so far as it is concerned:

as it is concerned:

From the above, it will be seen that the Times pays more than double the postage of any other daily paper in the State.

The Times pays more postage than any other two daily papers in the State.

The Times pays more postage than any other three daily papers in 'he State.

The Times pays more postage than any other four daily papers in the State.

The Times after deducting the amount paid for postage by all the other daily papers in the State upon their exchange lists, pays more postage on its bons side circulation than all the other daily papers in Kansas.

The Times has a circulation in the County of Leavenworth, on which no postage is paid, twenty times greater than any other paper in Kansas.

The Times has a circulation the County of Leavenworth, on which no postage is paid, twenty times greater than any other paper in Kansas.

The Times is this day enlarged four columns, and in addition to being the cheapest and best paper in Kansas, is the largest. Its State News department is alone worth the price of subscription, and is a special feature of the paper, which commends itself to those who desire to keep posted in regard to items of interest in Kansas.

The Times is pre-eminently a newspaper, and with its new and increased facilities and additional cellitrial force, will command a place in every household in Kansas.
